ALL ABOUT YOU

Design Sara Woodrow • 2015

For this collection I wanted to come up with girls that were little parts of my personality, whilst also drawing lots of inspiration from the fashion world. I don't know if you have ever had your special someone go away? When the one you love is on the other side of the world and it feels as if you're going to break and the days just go slower and slower. Eventually you see each other again and no feeling in the world is better.
Love you, Miss you, Want you and Need you.

CARAMBA

Design Ulrica Hydman Vallien • 1986 • Handmade in Kosta, Sweden

A trip to Mexico inspired the name of Caramba! It's a powerful word that contributes to the impact of the black paintwork. It works in many contexts as a piece of art in itself, but also as a bowl for fruit or vase for flowers. Mouthblown and hand painted at Kosta Glasbruk.

"I had two ambitions when I designed Château," says designer Bertil Vallien. "Firstly, I wanted to do a glass that a machine couldn't make, one you could see was handmade. The optics of the bowl and the slim, drawn stem saw to that. My second ambition was to keep the design simple but elegant."

CRYSTAL MAGIC

Design Åsa Jungnelius • 2018 • Handmade in Kosta, Sweden

High quality glassware, stylish design and Swedish craftsmanship in pure crystal are always the right choices for someone who wants to make conscious decisions that will last over time. That said, it is the beauty and the sense of luxury that will make 'Crystal Magic' a future classic. Each glass is carefully designed to make it the right glass for several occasions.

The softly rounded and generous shape, as well as the nice weight, gives the ultimate drinking experience. The swirl and the optic effect it creates in the glass, the light refracted through the crystal and the spiral twisting around the stem - all that brought together - gives both a visual and tactile sensation of the skilled craftsmanship behind the product. Handmade, multifunctional, lead free and dishwasher safe crystal.

PAGOD NEW

Design Anne Nilsson • 2018 • Handmade in Kosta, Sweden

Pagod is a stylish vase that brings you back to the 60's. The vase is mouth-blown by skilled glass blowers at the glass works in Kosta. The technique is called underlay, a multi-layer glass which means that clear glass lies like a casing over the stained glass and gives a beautiful and processed expression. The playful design is the work of Anne Nilsson. She is one of Sweden's most important glass designers and can take advantage of the craftsmanship, the simple language and function in an extremely elegant way. This vase is designed to give cut flowers a beautiful expression.

SUPER EGG

Design Bertil Vallien • 2013 • Handmade in Kosta, Sweden

Super Egg is proof of top quality glass-blowing. All Super Egg items are blown free-hand without a mould, and it's fascinating to see how the glassblowers control the molten blob, inflating the glass to its maximum and then shaping it using wet newspaper. This range is a tribute to our gifted glassblowers. A natural form for glass, as natural as a bird's egg.

SEPTUM

Design Mattias Stenberg • 2018 • Handmade in Kosta, Sweden

The outer shapes of the vases can be simple and smooth, but inside there is an irregularity and playfulness that makes every single vase a unique individual. It was this notion of a vibrancy and a “structure” within the outer walls of the glass that triggered the idea of the Septum vases. The Septum range consists of three different vases in different sizes. The vases work equally well on their own or in groups. The shades are natural and to some extent inspired by nordic glass art of the 60s and 70s.

Suspending roses in glass is an old art. Rose globes could be found in nearly every Swedish home in the 1960s. Mona Morales-Schildt worked at Kosta from 1958 to 1971, and her elegant rose globes on tall stands were among the glassworks' most beloved products. Now Lena Bergström has taken up the tradition. Bergstrom has created a two-part globe for roses and a bottle of fragrance. The fragrance bottle is unadorned and timeless. Her rose globe has become a tiny spaceship or time capsule of glass for the flower that's been found as far back as ancient Egyptian burial chambers. But it's also full of air bubbles.
"I wanted the glass to bubble, just as it makes our emotions bubble! If there's anything the world needs now, it's love, and that means we want those emotions to live on like this."

The inspiration for Hanna Hansdotter's glass towers was the glass legend Monica Backström's Space series from the 1980s with its "elegant urns" and monumental pieces. What was it that fired her imagination? "I like Monica Backström's silvery items a lot, but I also love that rocket shape of her giant towers. The pieces are inspired by urban evenings. I call them quite simply Nightfall, and we make them in four different colours. Four different nightfall colours, if you wish. If you collect several of them, you'll end up with a small city!" The towers have also been made botanical as well – they can be used both as sculptures and as vases."
